EDUCATION

- **BACHELOR OF SCIENCE IN COMPUTER ENGINEERING**

College of Engineering and Architecture
2021 – 2025

SKILLS

- Web Development
 - Next.js
 - React
 - Tailwind CSS
 - Supabase
 - Postgres
 - Adonis.js
- AI Automation
 - N8N

CERTIFICATIONS

- Udemy – *The Complete Full-Stack Web Development Bootcamp*
- free Code Camp – *Responsive Web Design*

PROFESSIONAL EXPERIENCE

AI DEVELOPER

Shore360 Agency (April 2026 – Present)

- Working on the development of Shoreflow, a SaaS platform designed to help our company manage and organize internal tasks more effectively.
- Setting up automated testing to find and fix bugs before they reach the users, ensuring the software runs smoothly.
- Helping the team turn manual, repetitive tasks into automated workflows to improve the company's overall productivity.
- Collaborating with other developers to improve the app based on how the staff actually uses it.

WEB DEVELOPER

ShoreAgents (August 2025 – April 2026)

- Designed and developed internal company websites focused on lead generation and marketing optimization
- Built modern, responsive web applications using Next.js, Supabase, and component-based architectures
- Leveraged AI-assisted development tools to accelerate coding, improve efficiency, and streamline workflows
- Collaborated with stakeholders to improve website performance, usability, and conversion rates

JUNIOR AI DEVELOPER (INTERNSHIP)

Shore360 – Parallaxx (2025)

- Assisted in the design and development of AI-driven systems for traffic safety and management
- Collected and prepared datasets for training machine learning models used in risk reduction tools
- Conducted testing and validation to evaluate AI model accuracy and performance
- Supported the team in improving model outputs through iterative testing and data refinement
- Gained hands-on experience in AI development workflows, including data handling, model evaluation, and system integration
